

Your Extra Milk Can Save Lives

Got a stockpile of frozen milk? Want to help vulnerable babies? Take the first step to becoming a milk donor.

For medically fragile infants, breast milk is more than a nutritional choice, it is a lifesaving intervention. Unfortunately, not all babies have access to their mothers' milk. With the support and service from mothers like you, **Mothers' Milk Bank of Tennessee** provides safe, pasteurized donor human milk to the most vulnerable babies.

What are the steps to becoming a milk donor?
